Next steps

Welcome to Design Mastermind!

Since 2009, we've crafted hundreds of scroll-stopping, eye-popping brands & websites for entrepreneurs, startups & small businesses all over the world - and let me tell you they have some pretty compelling success stories.

As part of YOUR growing team, we'll take care of all the heavy lifting when it comes to building a brand aesthetic, customizing templates, and crafting a unique, easy-to-navigate website for your growing business.

Keep reading to see how we can help your business attract new customers, stand out online, and flourish in any competitive market.

Laura Patricelli

Founder & Creative Director

Why Design Mastermind?

1

Enjoyable & Collaborative Experience

We encourage clear, open communication and honest, straightforward feedback.

Our goal is to not just produce results, but make the whole process easy & fun from beginning to end.

2

One-Stop Shop for All Things Web & Graphics

No need to juggle 10 different team members when we cover all the creative necessities under one roof!

We have experience in (almost) every industry, and can design just about anything you throw at us.

3

We Maximize Leads, Sales & Organic Traffic

Our team uses tried & tested lead conversation strategies, while optimizing for speed & SEO.

With 12+ years in the field, we use cutting-edge tech to bring our clients the best possible results.

How We Work

At Design Mastermind, we believe the most successful businesses are...

Collaborative.

Your business needs to represent YOU.

Yes we do offer done-for-you graphic design services, but we also encourage our clients to get involved in the process, which includes video coaching & consulting sessions to keep everyone on the same page.

Creative.

Your business needs to stand out from your competitors.

It's critical that your business makes a strong first impression. It can't do that if it looks the same as everyone else's. Developing a premium aesthetic for your brand, marketing & website is the key.

Competitive.

Your business needs cutting-edge technology.

Your business needs technology that's capable of growing WITH you as you expand your online empire... a future-proofed investment that guarantees lasting success, so you can scale upward with ease.

Compelling.

Your business needs to speak to your ideal customer.

When the perfect client or customer sees your social media post, arrives at a landing page, or watches one of your webinars, they need to feel like your offer was made specifically for them. They would feel stupid NOT buying.

Sample Timeline

Phase 1 • Weeks 1-5

Brand Exploration

Our first step is researching your competition and figuring out the direction we want to take your brand aesthetic. Although this stage involves a lot of ideation and concept exploration, you'll end up with a complete set of logos & brand assets that you can start using in your business right away.

Phase 2 • Weeks 6-10

Website Design

We start out by mapping the website's "engagement flow." This helps us establish key priorities for each page, and visualize how a potential customer will be moving through the website. We'll then produce 1-2 homepage mockups and get you on a screen-shared review call, so you can request changes and see updates LIVE. We'll go back and forth until you're 100% happy with how the site looks, then prepare assets for development. If you need copyediting, it will happen in this phase too.

Phase 3 • Weeks 11-16

Website Development

We'll take it from here! On a separate staging site, we'll build a responsive, engaging, search engine optimized website that you can review before we go live. We'll also provide a recorded, screen-shared training session as well as a cheatsheet doc with your brand assets organized in one place.

This example is taken from a premium brand & website redesign, but every project will look different!

Success Stories

Alex Navas

Online Marketing Specialist
AlexNavas.com

Being a marketer & web developer myself, I wasn't sure if Laura would be able to capture my brand message, understand my market and then bring it all together.

Laura's guidance and leadership throughout the whole process allowed us to move forward quickly without compromising the quality of her work.

Luisa Zhou

7-Figure Business Coach
LuisaZhou.com

She heard all my requests and was incredibly patient with all of the custom details I asked for.

The end result is worth so much more than the price I paid, and honestly, I can't believe I got such incredible value.

I recommend Laura without hesitation. In fact, I've been recommending her to friends, colleagues, and clients for the past 6 years we've worked together!

Client Showcase: Dakota Jackson Furniture

Connell Barrett

Dating Coach for Men
DatingTransformation.com

I've collaborated with many designers, and I've never met one with a more impressive combination of visual artistry & tech savvy. She has an "I'm on it" professionalism that makes The Container Store look disorganized.

If you want fantastic web design and development that makes you happy, puts money in the bank, and leaves your competition in the digital dust, let Laura rock your website.

Oh by the way, the new webinar registration page she designed has more than doubled my conversions, from about 9% to 20%+!

Aprille Reed

Business Strategist & Podcaster
AprilleReed.com

I am a DIYer and love building websites, but due to limited time and my perfectionism I couldn't create the perfect site.

Laura had worked on my branding/logo and did such a fantastic job, plus with her portfolio, it was a no brainer when I finally decided to bite the bullet and outsource web design.

Client Showcase: [Luisa Zhou Coaching](#)

Demir & Carey Bentley

Authors & Community Leaders
LifhackMethod.com

Laura is amazing at what she does, from strategy, to execution, to project managing the whole thing.

Plus, meetings with her are actually productive (a breath of fresh air versus other similar meetings).

We'll absolutely be working with Laura again!

Christina Jandali

Sales & Marketing Coach
DeliverYourGenius.com

All I can say is WOW! Laura brought my vision to life and as a result my confidence and sales exploded.

What's fabulous is that she really knows what converts - because making a sales page pretty does not necessarily mean it will make you money.

With all her clients, Laura consistently finds the sweet spot between what's going to look beautiful and what's going to convert.

Client Showcase: Terese Nielsen Art

Terese Neilsen

Visionary Artist
tneilsen.com

I can't tell you how awesome it is to have you and your team available for upcoming things!

I couldn't be more thrilled with what you do and what you provide!

Beverly Walthour

Sales Coach & Community Leader
BeverlyWalthour.com

I wanted to reach out to say thank you again for the design of my website.

I was offered an opportunity to be a recurring guest on an Atlanta based tv & radio station based on what she saw on my website!! Thank you!

Frequently Asked Questions

How long will it take?

While each project is unique, most branding & website projects usually take 8 to 12 weeks to complete. We'll discuss what to expect during your [meet & greet call](#).

What website platforms do you work in?

We have extensive experience designing and developing website using WordPress, Squarespace, Kajabi, Shopify, Instapage, BigCommerce, and ClickFunnels. Inside those platforms I've created memberships, forums, ecommerce, blogs, and more. I'm happy to discuss your particular requirements, so book a free call so we can discuss it further.

Do you offer payment plans or installments?

Of course! Projects under \$1000 are usually paid up-front, projects between \$1,000 and \$3,000 are paid half up-front, half on completion, and projects over \$3,000 are broken up into 3-4 installments, due throughout the project.

Do you offer on-demand or retainer services?

I do have limited availability to work with clients on an ongoing basis. Many clients simply choose to purchase a yearly website maintenance plan, while others pay us hourly to complete random tasks throughout each month. I'd be happy to [jump on a call](#) to discuss your needs and if there's availability.
